BlikaLine

BlikaLine is a modular concept for workshop design. With BlikaLine you have endless possibilities for flexibility in interior design of the workshop. The focus is on the personal designed workplace, where the modern mechanic can individually put together and create a workplace customized to the needs of the individual.

BlikaLine can be composed in many different colors, which enables a very special and aesthetic profiling of the workshop. In addition to a beautiful, industrial design and the well-known quality of Blika, the keywords are an effective workflow and a good work environment.

Our skilled advisors are happy to help you to develop it into a completely unique and functional solution.
